International.

A bit of background

- Need to create training materials for a large organisation
- A lot of material available but
  - Not easily reusable
    - Licence
    - Format
  - Hard to customise with organisation’s specifics
  - Hard to maintain

ECLIPSE FOUNDATION
Copyright© Eclipse Foundation AISBL and contributors. Made available under CC-BY-SA 4.0 International.

Enters Eclipse OSILK !

Open Source & InnerSource Learning Kit

Treat training material like software source code.

Copyright© Eclipse Foundation AISBL and contributors. Made available under CC-International.

Key Features

- Text-based → Lightweight Markup Language
- Collaborative
- Single Source, Multiple Outputs
- Modular
- Forkable

ECLIPSE FOUNDATION

Eclipse OSILK Highlights

Copyright© Eclipse Foundation AISBL and contributors. Made available under CC-BY-SA 4.0 International.

AsciiDoc®

- **Lightweight markup language**
- **Well-defined predictable specification**, managed by a foundation
- **Advanced native features**
  - Includes
  - Conditionals
  - Variables
  - Macros
- **Supported by a large set of tools**
  - IDEs / Text editors
  - Software forges (GitLab, GitHub, etc.)
  - Generic converters (Pandoc)
  - Dedicated tooling ecosystem (Asciidoctor, Antora, Kramdoc, etc.)
- **Used in large projects**
  - Most of the Git project documentation
  - Some O'Reilly Media's books
  - Red Hat's product documentation
  - Eclipse Handbook

Collaborative by nature

Text can be version-controlled

- Track changes
- Manage versions and releases
- Accept community contributions
- Review processes
- Fork
